To the Savings and Investment
Plan Committee and the Participants of the Eastman Kodak Employees' Savings
and Investment Plan

In our opinion, the financial statements and related schedules listed in the index appearing on page 2 of this Annual Report on Form 11-K present fairly, in all material respects, the net assets available for benefits of the Eastman Kodak Employees' Savings and Investment Plan at December 30, 2001 and 2000, and the changes in net assets available for benefits for each of the three fiscal years in the period ended December 30, 2001, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

NOTES TO FINANCIAL STATEMENTS
NOTE 1: DESCRIPTION OF PLAN

## General

The Eastman Kodak Employees' Savings and Investment Plan (the Plan or SIP) is a defined contribution plan of a controlled group of corporations consisting of Eastman Kodak Company and certain United States subsidiaries operating in the United States (Kodak or the Company). The principal provisions of the Plan are described below and are provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. Regular full-time, regular part-time, supplementary or conditional employees of Kodak are eligible to participate in the Plan. Kodak Ambassadors, co-ops and special program employees are not eligible to participate in the Plan. The Plan is subject to the Employee Retirement Income Security Act of 1974.

The Plan is administered by the Savings and Investment Plan Committee (SIPCO), which is the Plan Administrator and named fiduciary. The Trust, forming part of the Plan, is administered by Boston Safe Deposit and Trust Company (Boston Safe) (the Plan Trustee).

Plan Amendments and Other Changes
Effective February 1, 2001, the Acorn International Fund was replaced by the Artisan International Fund. Participants in the Acorn International Fund had the opportunity to elect to transfer their balance to the Artisan International Fund. If no election was made, any account balance remaining as of January 31, 2001 was automatically transferred to the Fixed Income Fund. Transfers, deferrals and rollovers into the Acorn International Fund were not allowed after November 30, 2000.

Effective April 1, 2000, the Newport Tiger Fund was replaced by the Matthews Pacific Tiger Fund I. Participants in the Newport Tiger Fund had the opportunity to elect to transfer their balance to the Matthews Fund.

If no election was made, any account balance remaining as of March 30, 2000 was automatically transferred to the Fixed Income Fund. Also effective April 1, 2000, participants transfering all or any portion of their account into certain funds, were not able to transfer any portion of their account out of those funds or reallocate among funds until the first business day following the seventh calendar day of such transfer.

Effective January 1, 2000, the Company began to match SIP contributions for an amount up to $3 \%$ of wages for employees who contributed up to $5 \%$ of their wages to SIP and who also participated in the Cash Balance Plus portion of the Kodak Retirement Income Plan. This matching contribution is allocated to one or more of the funds in the same manner as the participant's elective contributions are allocated on the date the match is received. Participants are immediately vested in the SIP Company match but those funds cannot be used for loans or hardship withdrawals.

## Administrative Expenses

The Plan provides for the payment of certain administrative expenses by the Trusts, including fees for investment advisors, the recordkeeper, the Plan Trustee, attorneys and accountants. The recordkeeper was Hewitt Associates through December 2001. Effective January 1, 2002, the recordkeeper is T. Rowe Price Retirement Plan Services, Inc.

## Contributions

The Plan includes a salary reduction provision allowing eligible Kodak participants to defer up to a certain percentage of qualifying compensation as defined in the Plan. The maximum deferral for Plan years 2001, 2000 and 1999 was limited to $20 \%$ of the aggregate of qualifying compensation and wage dividend, but not more than the statutory limit of $\$ 10,500$ for calendar years 2001 and 2000 and $\$ 10,000$ for calendar year 1999. All contributions to the Plan are immediately vested. Boston Safe invests participant and employer contributions to the Plan into the investment funds described in Note 3, as directed by the participant. Participants are eligible to make transfers between investment funds on a daily basis.

Loans
The Plan Administrator may grant a loan to a participant provided that the aggregate of the participant's outstanding loans will not exceed the lesser of: 1) $\$ 50,000$ less the highest outstanding loan balance during the previous 12 months, or 2) $50 \%$ of the current value of the participant's account excluding any Company match funds. A new loan must be at least $\$ 1,000$ and repaid within four years of the date of the loan. In accordance with the Plan provisions, the rate of interest is fixed at the discretion of the Plan Administrator. Interest is charged at the lesser of the maximum legal rate or the prime rate. The loans are secured by the balance in the participant's account and bear interest at rates that range from $5.0 \%$ to $11.5 \%$, which are commensurate with local prevailing rates as determined by the Plan administrator. (See Note 4.)

## Distributions

Distributions from the Plan are made under the following circumstances:

1. Approval of hardship withdrawals is made by the Plan Administrator or its designee. Hardship withdrawals will only be granted a) in order to meet obligations relating to the payment of substantial out-of-pocket medical (or dental) bills for the participant, the participant's spouse or any of the participant's dependents, b) for the purchase or construction of a primary residence, c) for tuition, room and board or other post-secondary educational expenses, or d) for payments to prevent eviction/foreclosure.
2. Upon attaining age 59 1/2, a participant may elect to receive a lump sum cash distribution from the Plan while still actively employed.
3. Upon separation from service for any reason except death, the full value of a participant's account is distributed as a lump sum if the account balance is less than a certain amount as defined in the Plan and the participant is not retirement eligible. Otherwise, the full value of the account is distributed when and as designated by the participant in a lump sum payment, or in monthly or annual installments. If an appropriate designation is not made by the participant, the account is paid in a lump sum cash payment in February following the year the participant turns age 65.
4. In the event of death, the value of a participant's account is paid in a lump sum to a designated beneficiary, if any, or to the decedent's estate, except that if there is a surviving spouse, then the entire sum will be paid to such spouse unless the spouse consents to the beneficiary designation of the participant.
5. The Plan Trustee is authorized to honor "qualified domestic relations orders" issued and served in accordance with Section 414(p) of the Internal Revenue Code.

## Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, if applicable, and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

## Plan Termination

While Kodak expects to continue the Plan, it has the right to discontinue contributions and amend or terminate the Plan at any time. In the event that contributions to the Plan are discontinued, the Plan Trustee will continue to administer the Trust. In the event of the termination of the Trust as a result of or incident to termination of the Plan, the pro rata value of the participants' accounts will be paid in accordance with the provisions of the Plan.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES
Basis of Accounting
The Plan operates on a fiscal year ending December 30.
The Plan's financial statements have been prepared on the accrual basis of accounting. Distributions payable to participants are recorded when the request for payment meeting the provisions of the Plan is received.

Investment Valuation and Income Recognition
The group annuity contracts are included in the financial statements at contract value because they are fully benefit responsive. In aggregate, the recorded value of the group annuity contracts approximates their fair value. Interest rates on these contracts remain fixed and are not reset until a contract matures. There are no minimum crediting interest rates under the terms of the contracts. Interest in common/collective trusts (pooled) funds reflects market values based upon the net asset value of the underlying funds. Shares of mutual funds are valued at the net asset value of shares held by the Plan at December 30. Fair values of all other investments are based upon active market quotations on national exchanges, if available, at December 30, or, if not available, upon amounts believed by the Plan Administrator to be realizable at that time.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at year end and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties
Investment securities are exposed to various risks, such as interest rate and market. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risk in the near term could have materially affected participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

## Reclassifications

Certain account balances at December 30, 2000 have been reclassified to conform to the 2001 presentation.

NOTE 3: INVESTMENTS
The Plan Trustee is not required to furnish a bond in connection with the custody of investments or other assets of the Plan.

The Plan Trustee is authorized to keep any portion of any of the foregoing funds in cash or liquid investments as it may deem advisable.

All dividends, interest or gains derived from investments in each Fund are reinvested in the respective Fund by the Plan Trustee.

TIER I: TIME HORIZON FUNDS - All Time Horizon Funds are pre-mixed portfolios of TIER II Funds.

5 to 8 Year Time Horizon Fund

The total number of participants in the Plan was less than the sum of the number of participants shown above because many participants invest in more than one fund.

The Plan Trustee makes loans to participants in accordance with Plan provisions. A loan made to a participant of the Plan is accounted for as a fund-to-fund transfer from the participant's investment account to a fund known as the "Loan Fund." The Plan's receivables for participant loan notes receivable are recorded as assets of the Loan Fund. As the loan is repaid, both the principal and interest are allocated to fund(s) to which the participant's current contributions are directed. The portion of the loan payment representing principal is accounted for as a fund-to-fund transfer from the Loan Fund to the participant's investment fund(s) and the portion of the loan payment representing interest is accounted for as income in the same fund(s). No plan participant benefits from the interest earned on a loan other than the participant who originated the loan.

Consistent with Department of Labor regulations, the components of net realized and unrealized gains and losses from investments are calculated for purposes of Form 5500 based on an investment's current value at the beginning of the year, or acquisition cost if acquired during the year (revalued cost). For purposes of determining realized gains and losses, the revalued costs of investments sold are determined based upon a weighted average basis.

NOTE 8: FEDERAL INCOME TAX STATUS

In June 1998, the Plan received a favorable tax determination letter from the Internal Revenue Service (IRS) in which the IRS stated that the Plan is in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving such letter. The Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. On June 1, 1999, the Plan Administrator applied for a new determination letter prompted by a series of changes in the IRS Code that affect qualified retirement plans. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.
