**ITEM 2.05 Costs Associated with Exit or Disposal Activities**

On September 18, 2006, Eastman Kodak Company committed to shut down a portion of the Synthetic Chemicals Rochester, New York operation that produces chemicals used in the manufacture of photographic products.

In conjunction with this action, the Company will incur restructuring related charges totaling approximately \$27 million. This includes employee termination benefits of approximately \$7 million, building and plant equipment accelerated depreciation and inventory write-offs of approximately \$13 million, and other exit costs of approximately \$7 million. The severance and other exit costs require the outlay of cash, while the accelerated depreciation and inventory write-offs represent non-cash charges. The estimated restructuring related charges exclude any pension plan settlement or curtailment gains or losses that may be incurred, as these amounts are not currently determinable. These actions are expected to be complete by December 31, 2007.

This action is a part of the Company's restructuring program that was originally announced on January 22, 2004 and subsequently expanded on July 20, 2005. The Company expects that it will continue to consolidate its worldwide operations in order to eliminate excess capacity.
